Paul Merrifield

“

It has been great to work with Sharad and his team at Cyber Gear. A top company and set of people to deal with.

Sajjad Hamid

“

Sharad has been in the digital business before most of his competitors could go about editing word documents. Always asks the right questions to help you and your business. His attitude is spot on to getting results and does not really sugar-coat things which translated to him being “Ridiculously Efficient”. I highly recommend his services and have seen first-hand projects being delivered on time, with high quality within the budget agreed.
